SRE team lead for a cloud-native platform processing ~240M external HTTP requests per month. Deep experience in Kubernetes platform design, GitOps, identity (Keycloak), secrets lifecycle, and reliability for distributed systems.

EXPERIENCE

01/2020 — present	Site Reliability Engineer Team Leader Smood SA Technical lead for a large-scale Kubernetes platform (~240M external HTTP requests/month). - Led migration from physical infrastructure to Google Kubernetes Engine. - Standardized GitOps delivery with ArgoCD, reusable CI/CD templates, and GitLab CI/CD. - Designed centralized identity with Keycloak (OIDC, SSO) and secrets management with HashiCorp Vault. - Migrated MongoDB to MongoDB Atlas; owned reliability and technical architecture for the platform. - Implemented end-to-end observability with Datadog and automated operational workflows.
01/2018 — 01/2020	DevOps Engineer — Team Lead KPMG Luxembourg Built delivery and platform capabilities for containerized workloads. - Delivered CI/CD pipelines and Kubernetes-based deployments. - Managed infrastructure as code with Terraform and Ansible. - Automated monitoring and environment provisioning; promoted DevOps practices across teams.
01/2016 — 01/2018	Systems Administrator & Software Projects (SIGL / ISSE — Information Systems & Software Engineering) EPITA Hybrid systems and application delivery for school infrastructure on the SIGL / ISSE programme. - Operated virtualized infrastructure (VMware, Active Directory). - Deployed OpenShift and application environments; contributed to architecture and automation. - Built and maintained an internal web application (Angular, Node.js).
01/2016 — 12/2016	DevOps / Integration Intern Autorité des marchés financiers (AMF) Internship while enrolled at EPITA, parallel to the SIGL / ISSE track. - Industrialized processes for test environments. - Automated technical workflows end-to-end.
01/2015 — 01/2018	Engineering degree, Computer Science & Software Engineering (SIGL / ISSE) EPITA
01/2014 — 01/2016	Preparatory class, PCSI / PC — preparatory class for engineering schools Centre International de Valbonne
09/2011 — 06/2014	High school diploma, Scientific baccalaureate Lycée Amiral de Grasse
